

\$2.00 A YEAR

Gem
Mr. and Mrs. Harry Stepp and Mrs. Roy Robertson spent Tuesday of last week in Bassano.

Mr. and Mrs. A. L. Fryberg were business callers in Bassano last Wednesday.

Cliff Cole spent a few days in Medicine Hat recently.

We are all proud of the snowing made by the school children at the School Fair held in Bassano last Friday. A goodly number of the school children and the parents were in attendance, but some were unable to be there on account of the weather.

Miss Woodhull, Mrs. Deham and Mr. Duncanson were at the fair helping the school children to tag their exhibits.

Miss Lucetta Dippie left on Monday of last week for Pasadena, Cal., where she will school.

Mr. and Mrs. John Arbuckle enter a kindergarten training and family picnic at the river on Sunday.

Steve Brown and Miss Woodhull were Sunday visitors at the home of Mr. and Mrs. M. E. Derham.

Miss Marjorie Copping and mother of Vancouver, B.C., arrived on Sunday. Miss Copping will have charge of the intermediate grades during the present term.

Mrs. E. B. Bramble and daughter Vera, spent the week-end in Duchess, the guests of her daughter Mrs. Ed. Books.

Rev. Lytle, pastor of the Presbyterian church in Bassano, will be in Gem Sunday, Sept. 25 to conduct the church service. Communion of the Lord's Supper and infant baptism will be observed.

Mr. Migeot will be glad to talk with anyone wishing to unite with the church at this time.

Geo. Fryberger was a Bassano caller Saturday evening.

Steve and Stanley Brown and Vest Shanks attended the dance in Bassano Friday night.

Mrs. Rumble and son Ernest, Mrs. Charles Marquess, Mrs. C. Jones, Mrs. Penhale, Mrs. Williamson, Mesdames L. and F. A. Stoberger, and Mrs. Fortney were among the Gem folks who attended the school fair Friday.

Countess
Mr. Robinson had the misfortune to have one of his teeth kicked out by one of his horses last week.

Everyone who attended the children's fair at Bassano from this district said it was a grand success.

Mr. and Mrs. Cleve presented their son Billy with a fine rattle horse last week.

Mr. Felton bought a fine looking team of cows at the auction sale in Bassano Saturday.

Mr. and Mrs. Snyder, Mr. and Mrs. Mattie, Mr. and Mrs. Feltton, Dale Ferguson, Floyd Gardner, Mrs. Cleve and Mrs. Slus were among the Countess visitors in Bassano Saturday.

A number from Countess among the W. L.'s will attend the W. L. convention at Brooks, Friday of this week.

Mr. Thompson lost a nice horse this week.

Some farmers have begun their fall plowing already.

Hussar
The Ladies Aid held a business meeting in the school house last Thursday afternoon and it was decided that the hussar would be held some time in the near future.

Mr. and Mrs. C. Lemley, Mrs. Hawkshaw, and Mr. Ament were visitors to Calgary last week.

Mr. and Mrs. Dobson and son La Verne returned home last week after spending a few weeks at Chinook.

Miss Evelyn Logan returned to her home north of the city after spending a few days with friends here.

Roy Warburton was fortunate enough to shoot a wild goose last week.

The dance in the station last Saturday night was enjoyed by the number who attended.

The Misses Violet and Josephine Haddock, D. G. For, R. Noisneau and J. G. O'Brien attended the hard times dance given in Bassano last Friday night.

Our genial bank manager entertained Calgary friends last Sunday.

Bassano Stork Lost Girl Prescription

ONLY BOY BABIES BEING BORN

Another Bunch of Five Boy Babies at Hospital—Not a Girl For a Month

Boys, oh boys!
Parents who want girl babies better not come to Bassano hospital for it seems that the stork has been overstocked on boys and the surplus has been allocated to Bassano district.

There hasn't been a girl baby born in the Bassano hospital for a month and the local physicians think the matter has gone beyond the joke stage.

The nurses in the hospital are all enthused and believe a world's record is going to be made.

Five boy babies were born this past week and those parents who are in the market for girl babies had better wait for a while to see if Mr. Stork can make up an assorted shipment.

Here's a continuation of the record run: Mr. and Mrs. Kim, of Majorville, on Sept. 17, a son.

Mr. and Mrs. A. Doucette, of Countess, on Sept. 17th, a son.

Mr. and Mrs. C. C. Wilson, of Bassano, on Sept. 19th, a son.

Dr. J. W. Edwards, health officer of Idlesleigh, on Sept. 19th, a son.

Mr. and Mrs. A. Levesque, of Rosemary, on Sept. 21, a son.

School Fair Attracted Five Hundred Children

Some five hundred school children enjoyed a happy time last Friday when they attended the Bassano District School fair held here.

A glorious Alberta autumn greeted the first fair held here and gave assurance of its success.

The Co-operation of the teachers, pupils and parents of the pupils resulted in a very creditable fair and one that elicited praise from out of town visitors.

Street Parade
The street parade of the children of the various schools was a big feature. The Bassano band headed this parade and imbued it with the necessary liveliness. Each school had a minor parade displayed by the pupils. The participating schools were: Gem, Rosemary, Clemeau, Burn Brae, Lathum and Bassano.

250 Entries
The exhibits, some 250 in number were arrayed in the greatest of interest. Exceptionally clever work was shown and it demonstrated that many of the pupils possess considerable talent.

Boys Win in Baking
A rather humorous surprise was sprung in the cake and pie baking contest. Boys won both these events. Charlie Bramble, of Gem, baking the prize winning pie, while Norman Churchill turned out the prize winning cake.

A mob of children swarmed around the capacious rink and ate ice cream, candy and other good things until their eyes bulged. Earl Beck, the secretary, was over-run by children anxious to know how their exhibits turned out.

Beck Deserves Credit
Mr. Beck took a lot of pains with the fair and instilled the necessary energy to make it the outstanding success it was. He has spent many hours of his time, journeyed over countless miles of roads, and kept close tab on everything, in order that the fair would be a real one. He is entitled to a great deal of credit.

H. P. Ferguson, the president, did all in their power to assist the fair and was a great help.

Bassano district school fair will rank among the leaders of the province.

Outside Opinion
Don H. Bark, superintendent of the Department of Irrigation of the Canadian Pacific

Prizewinners in Contest

The subscription contest operated jointly by the Bassano all and the Bassano District School Fair worked out splendidly. The prizewinners have been compiled by the secretary E. A. Beck are:

Bassano District: Norma Milroy, Gem District: Charles Bramble, Burn Brae: Mildred Ferguson, Clemeau: Norman Churchill.

These winners will receive gold mounted fountain pens.

The children who worked so industriously are cordially thanked by The Mail for their efforts. The circulation of this newspaper received a big impetus and the School Fair comes in for a generous share of the amount gathered.

Burglars Break Into Currie & Milroy's Store

Thieves gained entrance into Currie & Milroy's hardware store on Monday night by means of the skylight and stole a shotgun, a rifle, a case of ammunition and \$30 in cash.

The wired glass of the skylight was smashed and the burglars squeezed through. The stuff was stolen and an effort was made to open the safe.

Some time ago an effort was made to burglarize this store but entrance could not be made.

Have Opportunity of Joining Bassano Hospital District

On several occasions a number of the residents in Township 25, in Ranges 17, 18, 19, and 20, located just north of the Bassano hospital district, have requested that this area be included in the district.

Arrangements have now been made by the affect this, and a vote will be held at the Dundas on Monday October 31st. A.C. Mackay, of the Municipal Hospitals Branch, Department of Health, was in town last week arranging details for the ballot.

He also stated that on the dissolution of the Calgary hospital district, the people living in the vicinity of Chancellors would be granted their request for a vote on including their district in the Bassano hospital district.

A two thirds majority is required to carry the vote and it is anticipated that this will be achieved readily, owing to the very favorable opinion created throughout the district, of the advantage of belonging to a municipal hospital district.

Tentative Agreement For Electric Power Drawn Up

An agreement for electric power to supply the waterworks pumping plant for \$250 a month, was arranged between the United Electric Co. and the town council last Monday. The agreement is not finally ratified, but will be in the course of a week or two.

Provision was made for a rate of 2 1/2¢ a kilowatt hour if 15000 kwh. is used in a month. Over that amount the rate will be 3¢.

The town allows the company the natural gas for the emergency plant, also the site. Royalties on gas used will be paid the company will pay same.

The agreement is for five years duration, and a number of safeguards are put in. For instance, the company is required to operate the auxiliary plant for a run of 12 hours each month.

The council proposes to install another electric pumping plant to supply the auxiliary steam plant. The cost installed will be about \$2200, and the steam plant will be owned by the town.

To put the steam auxiliary plant in repair would cost almost as much as the new electric plant and it was considered good business to completely electrify the pumping plant.

Winners in Club Contests

Alfalfa, Poultry and Tree Planting Prizes
Great interest was taken in the awards in the various club competitions run in connection with the school fair.

There were four of these contests and prizes were given in alfalfa, alfalfa and poultry competition.

The garden contest was not figured up at the time of this writing. Mildred Ferguson won the tree competition.

The method employed in these events was as follows: the entrants secured the seeds, eggs, tree cuttings, etc. in the spring and planted them and cared for them during the summer.

They had to write a brief account of their experiences and also fill in a record sheet form, and these were considered in the awarding of the prizes. Thus the exhibit about the alfalfa contest to secure a prize.

Alfalfa, 1 acre of Grimm
Jack Bolton, first—field in section, 31.33; story 30.83; exhibit 25.44; total score 87.60.

School Fair Notes
The sideshow were quite an attraction and yielded lots of amusement.

Dr. Barlow was disguised as a wild man from Borneo, and has a whole midway in himself.

The fortune teller was none other than Jack McClellan. If J. C. wanted to tell the truth he might make a hit in that position.

Frank Dooley had charge of the "smallest baby", "white" and "black" the other freaks and sensations.

Ross Higgins, poultry judge, and an authority on that subject, stated that the poultry shown was unusually good. He was "pleased as punch" at the showing.

Miss Morton and Miss Tees were judges of school work. B. G. Bodmer of Agricultural Exhibits and Don H. Bark of farm mechanics.

The Ladies Aid of Knox church served tea, provided considerable convenience.

The third annual re-union of the 17th Battalion will be held in Medicine Hat on Saturday October 8.

was the Johnny Evers of the team. The final score was 4-2 for Bassano.

The line-up:
Gem—McGuire C., Warner P., Richard B., Pollock B., Richard B., Keener S., Walters, Warner and Scheibner, fielders.

Bassano—B. Ferguson 2b, King P., Holley 3b, Brock P., Walters ss, 07.

Baseball
Bassano won the baseball tournament, defeating both Gem and Rosemary. The Bassano team was composed of boys much larger boys and although the little fellows played well they were out of their class. Rosemary gave Bassano a good run scoring eight runs in the last inning when Franklin King, the Bassano pitcher lost control and could not get the ball over the plate to the mitt.

Gem played Bassano first and displayed a nicely balanced team of little fellows. "Mut" Richard on second base

WHEAT MARKET AT WINNIPEG DULL

Winnipeg, Sept. 21.—With no pressure, either of buying or selling, the fluctuations small and unimportant, the local wheat market today was very dull. The close was 1½ to 2½ lower. In the cash wheat market the demand was very poor, the offerings light and premiums practical unchanged on all grades. The volume of business was the lightest for many days. The coarse grains with the exception of flax which registered a sharp decline, were showing little change.

NEW SILO BEING TESTED

An experiment which will be of great benefit to farmers of this district if it proves successful is being conducted this winter by the C.P.R. Department of Animal Husbandry. An excavation 18 by 30 feet is being made, in which will be placed sunflowers and possibly some oats. This form of silo requires no material cost, labor being the only item. The requirements are a location where no surplus water will come into the pit. The result of this winter will show if it can be successfully adapted to this part of Alberta, and if the plan works it will result in large usage in the future. — Strathmore Standard.

HAY PRICES WEAKEN IN FACE OF MORE LIBERAL OFFERINGS

Hay was offered more liberally for sale, and prices have weakened slightly. Upland hay is being sold in the country at \$13 to \$16 per ton, with timothy hay running from \$20 to \$23.
Calgary city market has been better this week although timothy and green feed are not yet coming in quantities.

"TAKE THE BURDEN OFF AGRICULTURE AND CANADA WILL BE GREAT"

Ottawa.—"This country country will be made great by making agriculture a great, give agriculture a chance. Take the burden off its back and Canada will become the country we dreamed of in the wildest flights of our imagination." These were but a few of the remarks in an address delivered last evening by Duncan Marshall, former minister of agriculture for Alberta, at a luncheon tendered by the Central Canada exhibition directors to the livestock exhibitors and breeders here last week.

FARM NOTES

Potatoes appear to be scarce in quantity in every province in Canada except Manitoba, but at that there seems to be little demand. Calgary price to wholesalers was \$1.00 per cwt.

JUDICIAL NOTICE

To PERRY ROBESON, formerly of near Eyremore.

TAKE NOTICE that an action has been commenced against you in the Supreme Court of Alberta, Judicial District of Calgary, by Associated Mortgage Investors, to recover the sum of \$913.00 being the principal and interest due by you under the mortgage which you made in their favor on the South West Quarter of Section 36, Township 17 Range 18, West of the 4th Meridian, Alberta, and also for foreclosure of said mortgage.

AND FURTHER TAKE NOTICE that unless before the 17th day of October 1921, you deliver a Statement of Defence or demurrer, that notice of any application in the said action be given to you, the Plaintiff may, without further notice to you, obtain judgement and final order for foreclosure. THE MARKETS

(MARKET EXAMINER)

CATTLE.—Choice heavy steers are selling better at Calgary during the past few days, and quotations are up to \$4.25@\$4.85; good butchers, \$3.60@\$4.25; quality below that going as feeders and killers at varied prices. Cows slightly better in tone, but few make over \$3.00@\$3.25, good \$2.50@\$3; medium, \$2.25@\$2.50; common, \$2.00@\$2.25; canners down to \$1. Calves slightly higher with tops \$5.00@\$5.85; common, \$3.00@\$4. Very few bulls offered, but choice would probably bring \$2.25. Feeder steers going fairly freely at \$3.00@\$3.50; stockers, \$2.25@\$3.15; stocker cows, \$1.00@\$2.50. Springers and fresh milkers in good demand from \$5.00 to \$12.50 according to breeds.

HOGS.—Sharp advance on Wednesday on hogs at Calgary, up to \$14.50, and Thursday sales \$14.50 @ \$14.60, Friday's sales \$14.50 @ \$14.60. SHEEP.—Not much change in sheep prices at Calgary. Lambs \$16.00; ewes, \$14.50 @ \$15.50; wethers, \$2.50 @ \$4.25. GRAIN.—Wheat prices were notably since last issue, owing to congestion at lake ports and improvement in Argentine crop outlook. Some advances owing to storms, but conditions now improving and the thing will proceed. Prices are expected to remain about the same while congestion lasts, and while heavy fall rain of grain is coming on market.

POULTRY.—Eggs have taken on a firmer tone, owing largely to improved quality, and Calgary dealers quote prices ranging \$9.00@\$10.25. Creamery butter in car load lots has taken sudden advance owing to Montreal inquiries, but not enough information yet to warrant statements as to general movement. Dairy butter steady; No. 1 and 2 23¢@25¢, fancy 25¢@27¢; creamery receipts, 17¢. Cream prices unchanged; produce showing seasonal decline. Poultry unchanged except on fowl, which is lower; 12¢@15¢ chickens, 16¢@18¢; ducks 21¢@23¢; turkeys, 30¢; demand still soft. Potatoes not moving in car lots in south; growers selling to markets and stores at \$1 per cwt.

HAY.—Market show a d weaker. Upland brought from farmers, country points, \$13¢@16¢; timothy, \$20 @ \$23. Idaho hay underselling ours through Crow's Nest Pass.

WOL.—Last reports from London auctions show in wool better demand, and prices on some grades advanced.

NOTICE TO CREDITORS

In the matter of the Bankruptcy Act, in the matter of William Charles Sullivan.

Notice is hereby given pursuant to the Provisions of the Bankruptcy Act, that WILLIAM CHARLES SULLIVAN, of the Town of Bassano, in the Province of Alberta, did on the 20th day of September, A.D. 1921, make an authorized assignment to me of his estate and effects for the general benefit of his creditors.

Buy an Irrigated Farm

From the Canadian Pacific Railway

Irrigation makes the farmer independent of rainfall, and insures good crops, not occasionally, but EVERY YEAR.
Irrigation makes possible the successful culture of alfalfa, the king of fodder, which insures good returns in dairying and mixed farming.
Irrigation means intensive farming and close settlements, with all the advantages of a densely populated agricultural community.
Irrigation in the Canadian Pacific Railway Block is no longer an experiment, the years that it has been tried out have absolutely demonstrated its success wherever intelligently applied.
This is the most liberal offer of irrigated farm land on record.
BECAUSE—
You can buy land from the Canadian Pacific Railway, starting from \$50 PER ACRE with twenty years to pay and the privilege of a loan of \$2000 for improvements at 4% interest.
Principal after first payment until end of fourth year, reduced interest if settlement conditions are complied with, and no water rental for first year.

EXTREMES ARE WRONG

Human endeavor too often fails because of their being carried to extremes.

Germany, now continually held up to the world's gaze as a horrible example, again affords an apt illustration.

Despite denunciation, Germany had a system of government before the war admirably fitted to her people and her position in Europe. She was being litted to commercial supremacy when the extremists—the war pilots—destroyed all.

Trade unionism proved a boon to the workman. It lifted him from the hopelessness of semi-slavery and placed him in a happier and more independent sphere of existence. The threatening danger now is from extremists in labor's ranks.

The average individual outside of organized labor's ranks has great sympathy with the movement. Unionism has made the world a better place to live in and brought happiness where once only despair had lucked. It remains with the rank and file of the union to see that extremists do not wreck their organizations.

WHEAT!

Fifty thousand acres in the Medicine Hat district has been seeded to rye. Hundreds of farmers throughout the southern portion of Alberta have planted a considerable area of their holdings with rye seed. Rye has proven to have many advantages as a grain crop but it will never displace wheat.

Wheat is the banner crop of the prairies, the basic food of the world, and the commodity for which there always exists a ready market. The climate of Southern Alberta is, with the exception of occasional dry years, eminently suited to the growing of wonderfully fine wheat. The cool nights of the growing season and long days of sunshine gives the wheat that flinty quality so much sought after by the millers.

Irrigation at the very best,

will only be available for a fraction of the acreage of Alberta, and irrigated farms do not show the greatest production under wheat. Hay, dairy produce, vegetables and such like, are the money making crops for the irrigation farmers. Wheat is the dry farmer's crop and rye will never supplant it.

PIGS AND PIGS

"Nothing in pigs!" so it goes when farmer meets farmer. We, however, who keep pigs ourselves, venture to contradict this. There is a great deal in pigs, if only for home consumption. What is nicer than a rash of bacon or a slice of ham-cured ham? How convenient too if unexpected friends call in.—Sedgewick

And even if the pig is blind it will buy it in a trice.

MAKE IT 10 FOOT

The foot dwellers in the south end of town is a great improvement. Mike, it wouldn't hurt to extend it a few feet further.—Cassidy

WALL THE CROW

An Empire district man confided to his local paper a scheme of his own for altering the climate of these parts. To wit: he kindly he proposes to construct a wall across the Crow's Nest or whatever it is, so that the cold winds from the north and north-west cannot come through the mountains, thus shutting them off and allowing moist, warm winds from the east and south to prevail. Some risk haven't heard that the South Saskatchewan is being brought down here for this same purpose. Budget, Lovelace.

A POSER

An interesting story is now going the rounds concerning an editor who comes right and flaunts his ignorance. He declares he can't help his son with his night work when the questions asked are like these: "If it takes a four-month-old woodpecker with a rubber ball nine months and thirteen days to peck a hole through a cypress tree that is large enough to make 117 shingles and it takes 163 shingles to make a handle worth ninety-three cents, how long will it take a one-eyed grasshopper with a rock to kick all the seeds out of a tickle." Ottawa Journal.

NEW RYE GRADE

It has been proposed to establish a new grading in rye to come between "2 C. W." and "1 selected", the new grade to be "3 C. W." At present the spread between 2 C. W. and 1 selected rye is 20c to 30c.

YOUNG BASSANO COUPLE WEDDED

Bertha Gladys Watson, Bride of C. H. Udall

On Wednesday afternoon an interesting wedding was performed at Knox Presbyterian church when Bertha Gladys Watson became the bride of Charles H. Udall. Rev. Mr. Little performed the ceremony in the presence of a number of friends of the bride and groom. The bridesmaid was Miss Bessie Mort, while James Stinson supported the groom. During the signing of the register Mrs. H. D. Powers sang "I Love You Truly". The young couple left on the afternoon train for a honeymoon in the mountains. They are popular in Bassano and their friends extend happiest wishes to them.

Mr. and Mrs. E. C. Scribner and son Frederick of Stowe, Vermont, are guests of Mr. and Mrs. E. E. Udall. Mrs. Scribner is a niece of Mrs. Udall.

Makepeace

Dr. E. A. Mann, of Portland, Ore., has been here for the past week looking after the marketing of his crop. He left for his home Friday.

Snow and rain has delayed threshing somewhat the past week.

A. A. Botwick has finished threshing.

W. G. Lake is building a cook house on the Big Bend Land Company's land.

This makes a complete set of buildings Mr. Lake has erected for them this summer.

Several children from the neighborhood are attending the public schools in Bassano. The numbers of the Bassano school board have shown the proper spirit in the stand they have taken.

Mr. George Smard has leased W. G. Lake's farm and will move on as soon as R. W. Knott and family leave for their new home in Oregon.

Seldom, Herward made a business trip to Calgary last week. We suppose he went up to look em over.

Bert S. Parinton has built a well drilling machine along ideas of his own, one feature being that it provides power for its own locomotion. The driller has a range of depth up to 500 feet and has been constructed with considerable mechanical ingenuity. It will travel at about 2 1/2 miles an hour, carrying complete equipment for drilling.

A BUSY MAN

The following advertisement appeared recently in a Kentucky newspaper: "Notice. Know all men by these presents that I, Shadrach H. Armstrong, have, coal of for sale at 15c a gallon. Some say it's good oil, but I say it's. I will also tie your brown corn—one end or the other. I crush corn every Thursday by toll gate. Turkeys picked very promptly any day of the week. Horse-shoeing a specialty at six bits a round. Watch and pistol repairing guaranteed. Shoes half-soled while you wait. Umbrellas fixed and axe handles made and fitted at 15 cents apiece. Unteach southern harmony and the fiddle combined for \$15 by the month. Pictures enlarged by new process, and my hot tamale and hair oil recipe goes 330 days for 25 cents. Hair cutting on Saturday evening only at 20 cents a head. A good stripper cow for sale. My rig is also agent for the Jones wag—the best made in this section, on hoist."

EXTREMES ARE WRONG

Human endeavor too often fails because of their being carried to extremes.

Germany, now continually held up to the world's gaze as a horrible example, again affords an apt illustration.

Despite denunciation, Germany had a system of government before the war admirably fitted to her people and her position in Europe. She was being lifted to commercial supremacy when the extremists—the war party—destroyed all.

Trade unionism proved a boon to the workman. It lifted him from the hopelessness of semi-slavery and placed him in a happier and more independent sphere of existence. The threatening danger now is from extremists in labor's ranks.

The average individual outside of organized labor's ranks has great sympathy with the movement. Unionism has made the world a better place to live in and brought happiness where once only despair had lurked. It remains with the rank and file of the union to see that extremists do not wreck their organizations.

WHEAT!

Fifty thousand acres in the Medicine Hat district has been seeded to rye. Hundreds of farmers throughout the southern portion of Alberta have planted a considerable area of their holdings with rye seed. Rye has proven to have many advantages as a grain crop but it will never displace wheat.

Wheat is the banner crop of the prairies, the basic food of the world, and the commodity for which there always exists a ready market. The climate of Southern Alberta is, with the exception of occasional dry years, eminently suited to the growing of wonderfully fine wheat. The cool nights of the growing season and long days of sunshine gives the wheat that flinty quality so much sought after by the millers.

Irrigation at the very best,

will only be available for a fraction of the acreage of Alberta, and irrigated farms do not show the greatest production under wheat. Hay, dairy produce, vegetables and such like, are the money making crops for the irrigation farmers. Wheat is the dry farmers' crop and rye will never supplant it.

PIGS AND PIGS

"Nothing in pigs!" so it goes when farmer meets farmer. We, however, who keep pigs ourselves, venture to contradict this. There is a great deal in pigs, if only for home consumption. What is nicer than a rocher of bacon or a slice of home-cured ham? How convenient too if unexpected friends call in. — Seidewick Sentinel.

And even if the pig is blind it still has its usefulness.

MAKE IT 10 FOOT

The 10-foot sidewalk in the south end of town is a great improvement—sure! Mike, it wouldn't hurt to extend it a few feet further. — Carstairs Journal.

WALL THE CROW

An Empress district man confides to his local paper a scheme of his own for altering the climate of these parts. To wit: he briefly he proposes to construct a wall across the Crow's Nest or whatever it is, these hot winds come from the mountains, thus shutting them off and allowing moisture-laden winds from the east and north to prevail. Some talk haven't heard that the North Saskatchewan is being brought down here for this one purpose.—Budget, Lethbridge.

The six reel comedy "The
Kid" which brings out the
best humor Charlie Chaplin
has produced, will be shown
at the Gem on Friday and Sat-
urday of next week.

This film is being shown in
Calgary this week and has at-
tracted great crowds. Manager
Torgan in following his policy
of "the best pictures procur-
able for Gem patrons" has ar-
ranged for this film's presen-
tation in Bassano.

"The Kid" will be shown on
Friday and Saturday nights of
next week and a matinee will
be given at 4 o'clock Satur-

Oh, Money! Money!

by ELEANOR H. PORTER

Printed by Special Arrangements with The Allen, Toronto Ont.

I don't think Mr. Millicent's heart is affected in the least—she's only a little nervous, remember that her pride is. And her mother—Mr. Millicent is thoroughly angry as well as worried. She says Mr. Millicent is not a man who would stand in the way of her son's affections in a pretty small price. For her part, she never did have any use for rich folks, anyway, and she is proud and glad that she's poor. I am afraid Mrs. Jane was very angry when she said that. However, in much for her—and she was right.

Mr. Millicent's only son, that young Pennock, already a reputation, and pulling hard at the money-bags. Strips, for I was with Mr. Millicent one day when he was in the habit of going to the office on the 10 o'clock train. He was in a very good mood and looked as if he was in a very good mood. He was in a very good mood and looked as if he was in a very good mood.

There is, too, another matter in the case. It seems that a new family in the name of Galloway have come to town and moved in. The new family, the Galloways, are an old family. Peter Galloway, and his wife, I am afraid Mrs. Jane was very angry when she said that. However, in much for her—and she was right.

CHAPTER I

"Dear Cousin Stanley"

It was very late in November that Mr. Smith, coming home one afternoon, found his wife sitting at the table, looking very pale and anxious.

In the living room were gathered Mr. Frank Blaisdell, his wife, Jane, and two daughters, Mollie and Mary. They were all looking very pale and anxious.

"No, there isn't," put in her husband crisply. "And I guess we can pay the inheritance tax with a hundred thousand to pay it out. We're going to spend some of this money."

The telephone bell in the hall rang. Mr. Millicent answered it. In a minute he returned, a new excitement on his face.

"Hailie, she's crazy, of course. They're coming right over."

"Oh, yes. And they've got it, too. Have they?" remembered Mr. Millicent. "And Aunt Flora, and—"

Canada's Oil Fields Foch Warns Against Germany

Circle of Those Concerned Is Constantly Broadening.

The late Mr. Bessworth, who located the claim on which the oil strike was made last year before Fort Norman, has arrived in New York from England. He states that he is representing several British coal men who are branching out into oil, and is planning an extensive trip through Western Canada.

"But why only expect us as long as we are strong? I ask you to absorb the idea that France is unable to stand soundly without risking a little swanking."

Tank In British Invention

Was One of Most Important in History of War.

The tank is a British invention. In the Allied armies," says the Daily Mail (London Year Book for 1919), "the British invention of the tank has been recognized in 1916 as one of the most important of the century."

Coal Swim in Mid-Ocean

Crew of Neith Took Dip Thousand Miles From Land.

The Liverpool ship, the "Neith," which was reported to have been sighted by the British navy, was found to be carrying a large quantity of coal.

"The most remarkable incident of the trip," Mr. de Wolfe said in a London Daily Mail report, "was the finding of a large quantity of coal."

It was then, looking down on her from the ship, that she saw a large quantity of coal.

Once we ran into a 30-mile-long gulch, the Neith made, nothing of riding through that. That night, when the seas were pounding on the ship, the crew took a dip.

"I found him on his knees, with his head buried in his hands, and his hands clasped in prayer."

Co-operation Sought By Saskatchewan Department of Agriculture.

The cooperation of the Provincial Department of Agriculture in bringing potato growers into the market is being sought.

The potato crop proved a failure over a wide area of Eastern Canada. The potato crop proved a failure over a wide area of Eastern Canada.

A Witty Chauffeur.

The chauffeur never spoke except when addressed, but his few words were given in a broad, hearty laugh.

One of the men in the party remarked: "You're a bright sort of fellow, and it's a pity that you're not a chauffeur."

"No, sir, you are very badly mistaken," replied Dan.

"No, sir," replied Dan. "Didn't they come from Ireland?"

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for babies. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA? Castoria is a harmless substitute for Castor Oil, Paregoric, Opium, and other narcotic substances. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; alleviating Fevers, teething, and all the ailments of Infants and Children. THE CENTAUR COMPANY, NEW YORK CITY

Canada Offered Free Transport of Exhibit

France Extends Same Privilege Given Them By Dominion

Free transportation of Canadian sample goods across the ocean, free warehousing in French docks, gratuities on the French railways and other equipment required for a complete exhibition train to tour France next year are offered Canada by the French Government.

The proposed train would exhibit the manufactures of Canada, similarly to the French train which is now showing the wares of the republic in Canada.

In addition, the French Government offers the use of the best theatres in every city visited, with the net profit of the entrance receipts, as well as the free use for a period of six months of the best hotels in the building in Paris, presumably La Petit Palais in Les Champs Elysees.

These privileges extended by France are an exact replica of those which Canada has granted to the French exhibition train, but the Dominion will have in a valuable advertisement its resources to a market of 30,000,000, while France's appeal is to a market of only some 5,000,000.

A Trade Fair in Paris would be viewed not only by the 2,500,000 population of the capital, but by the travelling public, tourists and buyers, which congregates there from all over the world.

In sponsoring this proposed tour of a Canadian exhibition train through France the department of trade and commerce asks the interest and co-operation of the Canadian public, suggests that the business community commit to carry out the project and offers to do the initial work in connection with a permanent organization to be formed at a later date and is open to receive suggestions and opinions from those interested.
